GREAT EXPECTATIONS...

S 55 AMG SEDAN: In the beginning, AMG built racecars. Then they made quite a name for themselves by taking stock Mercedes vehicles, modifying the engines, beefing up the suspensions, adding performance bodywork and selling these autobahn-eating monsters to a discerning audience of performance enthusiasts. So now you can get one of these street-legal performance machines complete with a full factory warranty and all the benefits of buying from Mercedes-Benz.

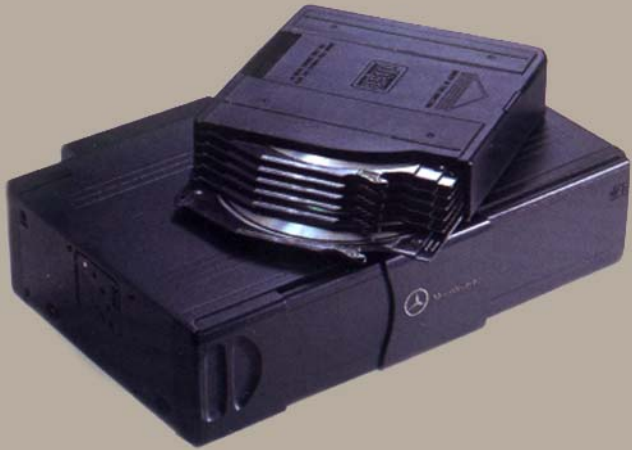

ENJOY THE RIDE WITH OUR S-CLASS

S-CLASS SPORT PACKAGE: For the S 430, S 500 and S 600 Sedans, this option enhances the look and feel of performance with more serious wheels and tires, and seductive AMG-designed lower bodywork. **The Running Shoes:** The Sport package adds monstrous 18" AMG monoblock wheels, staggered in which from front to rear for a more aggressive stance. **From the Front:** It's got looks that mean business. For the front lower bodywork, AMG designed an aggressive front air dam with black mesh grilles in the air intakes. **In Profile:** Sculpted sills lower the side profile of your S-Class, accenting its aerodynamic streamlining.
